Discoveries International Limited has been established since 1985, and our main activity is in the Middle East. We specialise in soft furnishings, and can source literally anything you require ! More recently we have been acting as a Buying House for several prominent customers who ask us to follow up whatever enquiries they receive: this is where we can really live up to our name, discovering whatever is needed at the time. This may vary enormously, from carpets, garden furniture, household linens, to even hospital bedspreads or national flags ! We deal only with factories and mills, ensuring the keenest possible prices.

Our mainstream aim is to provide a service in obtaining whatever is required, particularly on large specifications and tenders. We have much experience in obtaining customised items, including hand-engraved silverware and silver gift items. We can organise special embroidery of logos, crests and symbols on almost anything, and fabrics and cloths can even be specially woven to order. Our clients range from palaces to individuals, and our contacts list is extensive. We can consolidate orders, and we take care of all the documentation, legalisation and freight arrangements.

The Managing Director has personally lived in the Gulf States for over 10 years previously, and has travelled there frequently on numerous occasions. Her husband is an Architect and Urban designer. We offer complete management and coordination of projects, and our library of information is extensive. We can supply carpeting, lighting, furniture etc at competitive prices. Above all it must be emphasised that we are flexible in outlook with a 'feel' and respect for the Middle East culture which is so special and unique. We are active in our field, and are now expanding into children's nursery furniture (flat-packed for easy export), further details of which can be provided upon request. We look forward to hearing from you.
