*"Why not let your child discover
the images that we can offer?"*

Our animals are not alive

But see your child's potential thrive!

*Your child will have just loads of fun
with all our products, for years to come!"*

Animal IMAGES

FUN WITH ANIMAL IMAGES FURNITURE

(for 1-6 year olds)

Welcome to our delightful and unique "Animal Images" range of children's "character" cut-out furniture products! They are carefully manufactured from top-quality MDF board, then curtain-coated and sprayed with child-safe, water-borne paint and a top coat of tough water-borne lacquer, followed by screen-printing of the image using only child-safe inks. Assembly is simplicity itself, and all items have been rigorously tested, covering BS 5873, BS 4875 and other relevant tests. They are approved under the Toy Safety regulations EN71 for performance, freedom from flammability and toxicity. The transit packaging is constructed entirely from materials that can be recycled. Our first items in the range, the table and chair designs, have been "Highly Recommended" by the GOOD TOY GUIDE.

Children learn more quickly when they're relaxed and happy: our products aim to promote that feeling. One of our key objectives is to put the fun back into children's furniture! The Animal Images range holds a strong appeal to young children and adds warmth and cheer to any early learning environment. The products are well-constructed, sturdy and built to last. They stimulate children's imagination, encourage their social development, and enhance their creativity. Please contact Elizabeth Watson at Young Discoveries for further information (Tel: 0202-517317 Fax: 0202-532722).
